

Design features

- According to EN 545
- Working pressure MOP (PN) 16
- Made of ductile iron, epoxy powder coated
- Flange size according to EN 1092-2 | PN 16
- Standard drilling to EN 1092-2 | PN 10

All flanged tee T-piece No. 8510

* Also available drilled to EN 1092-2 | PN 16
(Please specify on order)

* Only PN 16 available
