

SLC LED-Strips Sauna CV 24V 9,6W

08/04/2022

B_S14062

Product description

SLC Sauna LED-Strip is built for installation in environments with high temperatures. It's also IP67 protected against dust and moisture. Expected lifetime: 60.000 hours @Tc=85°C, 50.000 hours@Tc=105°C (L80B10). Warranty: 5 years @ Ta=85°C, 3years @ Ta=105°C. Easy installation: SLC Sauna LED-Strips come with a 3M adhesive tape that handles temperatures up to 105°C.

Technical data

Model	Strip
Lamp type	LED not exchangeable
Lamp power per meter	9,6 W
Lamp voltage	24 - 24 V
Type of control gear	LED operating device voltage-controlled
Protection class	III
Colour of light	White
Width	10 mm
Length	5000 mm
With end piece	Yes
With protective cover	Yes
Type of wiring	Ending
Conductor cross section	0,35 mm ²
LED-Strip length (m)	5
3M adhesive tape	Yes

Mounting method	Surface mounting/recessed mounting
Number of nodes per meter	126
Voltage type	DC
Beam angle	120 °
Degree of protection (IP)	IP67
Max. system power	48 W
Colour rendering index CRI	80-89
Height/depth	6,8 mm
Length of particular segments	55,6 mm
With connection set	Yes
Self-adhesive	Yes
Number of poles	2
Connection type	Other
Max length per connection:	5 meter

Dimming range 1-100%

Dimmable Yes

Brand SLC
