

Titanium Eco Horizontal

Velg produkt fra listen under

The Titanium Eco Horizontal series is horizontal heaters, which are especially suited for basements, attics, saunas or other places where there is little headroom. Our horizontal water heaters come in the models 200 and 300. Titanium Eco Horizontal have a stainless steel finish, and have a cylindrical shape. In addition, the water heaters now have an external adjustable thermostat with Eco position.

Please contact our Export Department to find the correct product range for your market.

INSULATION

- High density CFC free and fire retardant polyurethane foam insulation
- Leading heat loss performance of less than 70W
- This can reduce energy costs by up to 15%

LIFE SPAN

When installed correctly, and otherwise adhering to instructions concerning water quality, the Titanium Eco Horizontal series have an expected life span of at least 20 years.*

** This does not apply to parts, such as thermostat and immersion heater.*

STEEL QUALITY

- 1.4521 Niobium-Titanium stabilized steel
- Offers extreme protection against corrosion
- The steel gauge is also thicker and therefore better than those used by other manufacturers.
