

DUO CONNECT

Floodlight with two lamp heads providing 2500 lumen

Extremely powerful work light

The new DUO CONNECT is a real “value-for-money” work light considering the extremely high level of lumen output, up to as much as 2500 lumen. The light output can be adjusted in 2 lighting settings, 50% and 100% depending on the actual job.

Multifunctional floodlight with two flexible lamp heads

With its two flexible lamp heads DUO CONNECT will be able to provide illumination from any lighting angle you need for the job. Both lamp heads have dual axis rotation which means that the lamp heads can be rotated in all directions independent of each other providing completely flexible positioning of the light source. When folded the DUO CONNECT is very compact and streamlined.

DUO CONNECT can be positioned on the surface where the battery base is acting as stand. The foldable metal hook is for flexible suspension. For positioning in the height, DUO CONNECT is compatible with the 2 m SCANGRIP TRIPOD, item no. 03.5685.
