

PROLED[®]

RF Mono Remote Controller

The PROLED RF MONO remote controller can dim 4 different zones in combination with the **RF PWM DIMMER 1-CHANNEL / RF PWM DIMMER 4-CHANNEL / RF PWM DIMMER IP65 4-CHANNEL** LED luminaires without intensive installation work.

- easy dimming with a dim wheel
- Enable to control 4 different zones separately or parallel (for each zone one RF PWM DIMMER is needed).
- saving of 3 different brightness levels for each zone
- each zone can be connected to endless RF PWM DIMMERS
- each RF PWM DIMMER can be controlled by max. 8 RF remote controllers
- 868 MHz, 20-30 m distance of transmission indoors

PROLED RF MONO REMOTE CONTROLLER MANUAL (474.5 KB)
