

Plastic Covers O-Line

O-LINE PLASTIC COVERS

Two different shapes of high quality plastic covers are available:

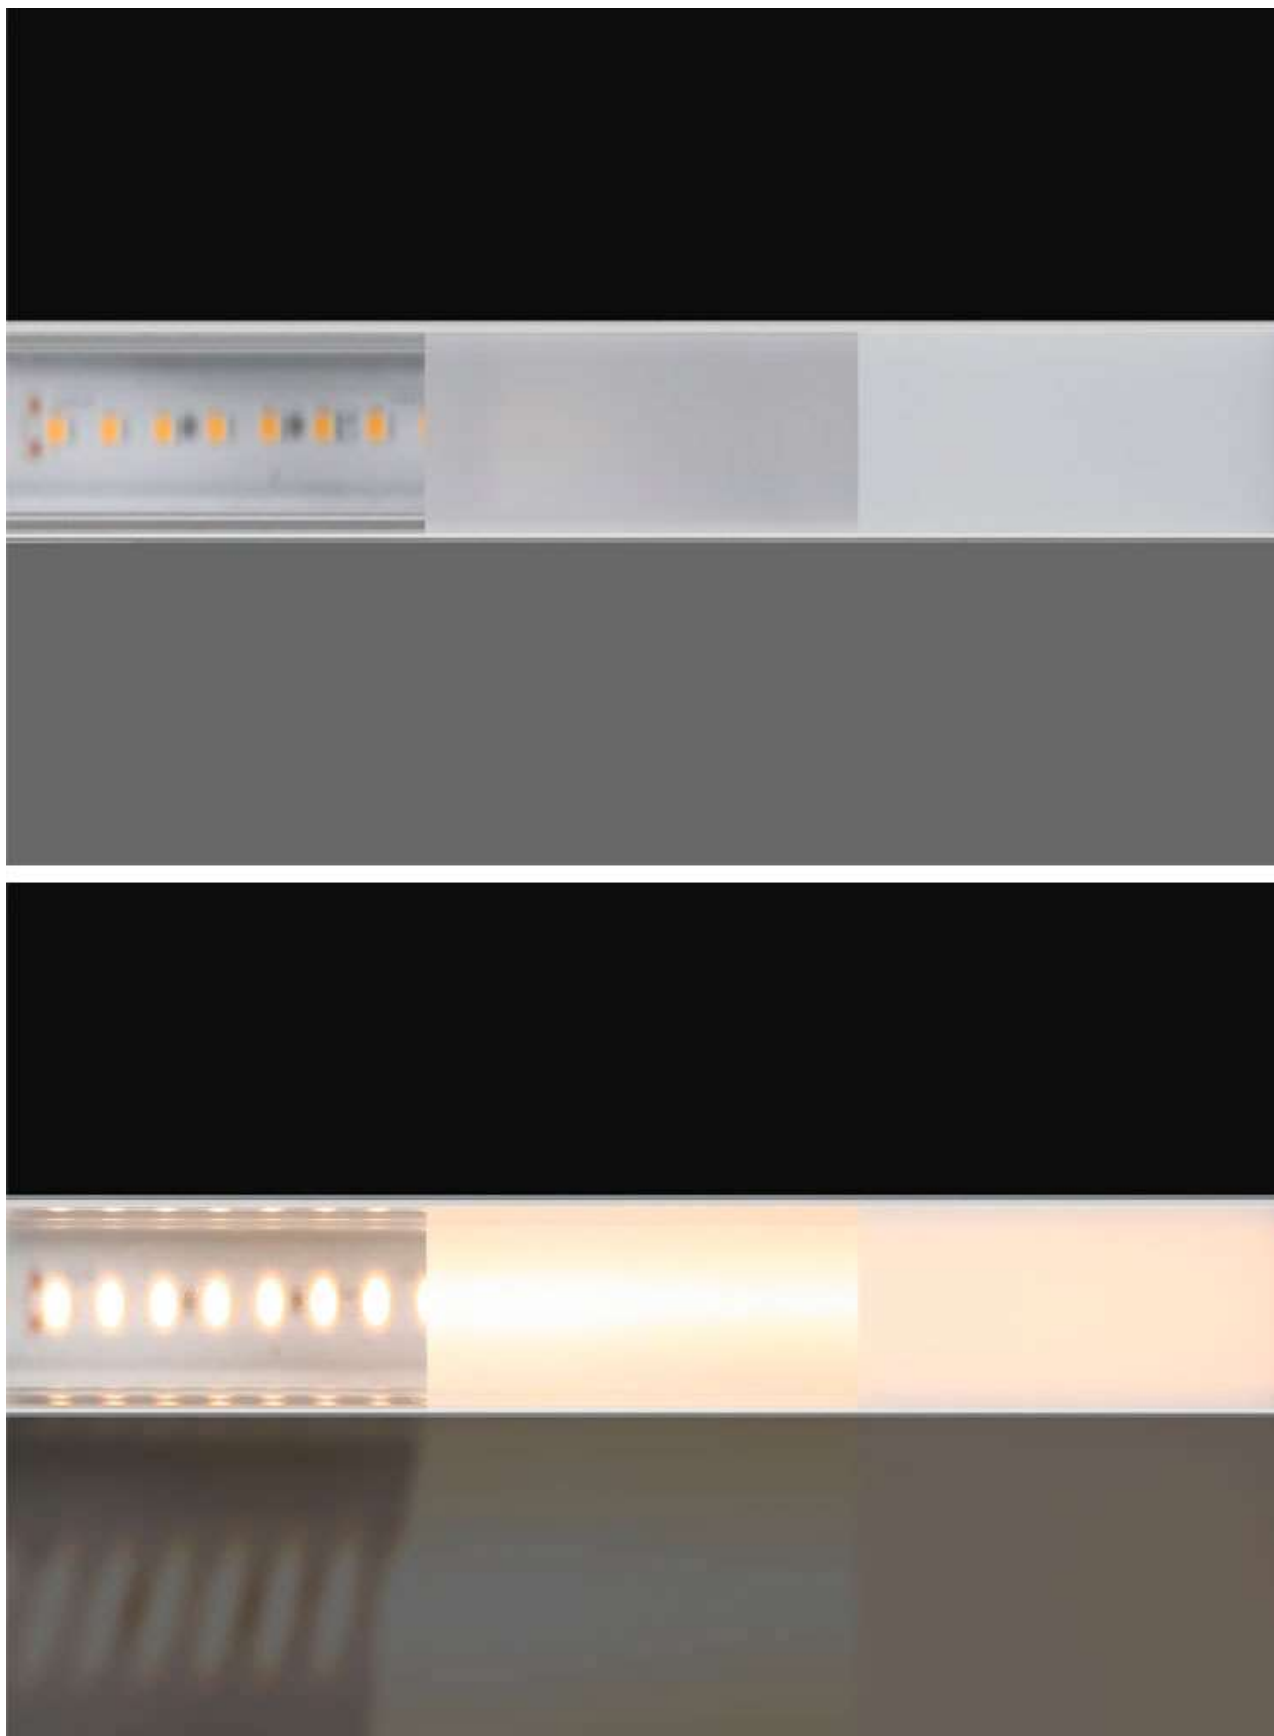

- flat cover
- round cover

Each of the two shapes are available in following versions:

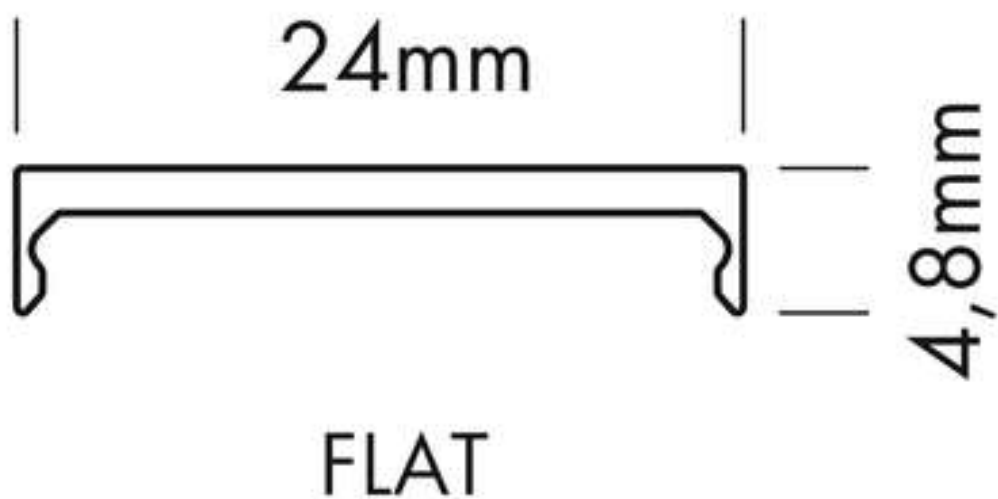

- crystal clear
- frost (semitransparent)
- milky frost (opal)

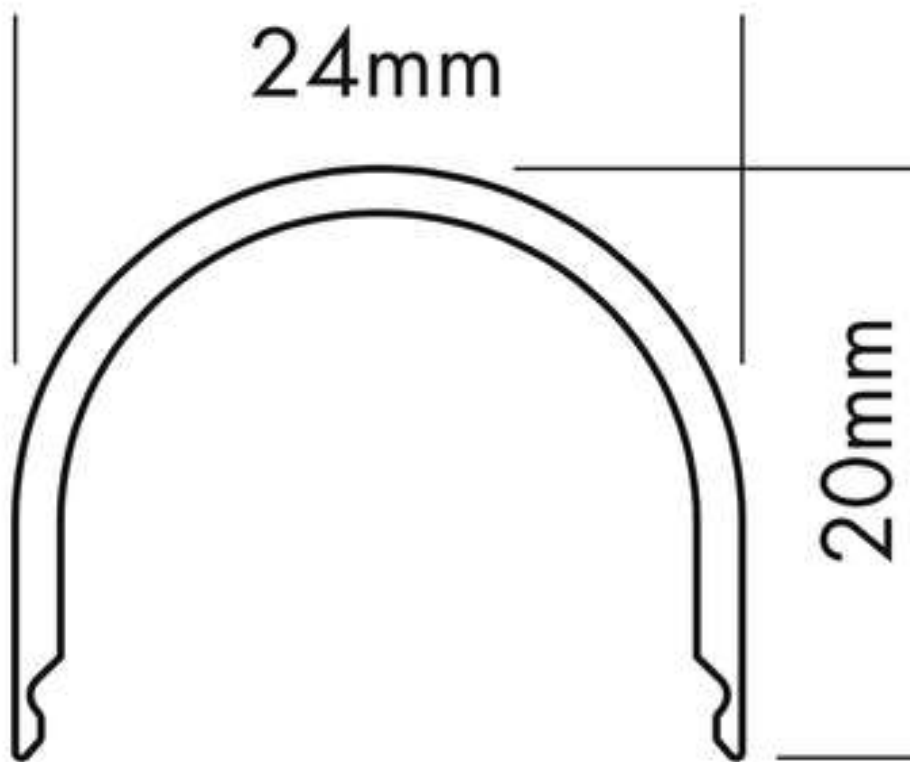

The covers are overlapping the O-Line aluminum profile at the outside. Thus less dirt and water can enter the profile. Combined with IP68 or IP67 FLEX STRIP they are ideal for outdoor use.

Plastic cover: Clear | Frost | Milky (opal)

All PROLED aluminium profiles, plastic covers and end caps are protected by registered community designs (international design patents).
