

Installation & assembly

- 1 Open the Plejd app and select **Add device**.
- 2 Press any button on the WPH-01 to activate it (active for 60 seconds). Select the device in the app and follow the installation steps.
- 3 Unscrew and remove the center plate. Mount the WPH-01 with tape or screw.
For tape: check the range first by testing functionality from its intended location before taping the WPH-01 in place.
- 4 Mount cover frame. Fasten the center plate and click the desired rocker switch into place.
