

Installation & assembly

- 1 Open the Plejd app and select Add device.
- Press any button on the WPH-01 to activate it (active for 60 seconds). Select the device in the app and follow the installation steps.
- Unscrew and remove the center plate. Mount the WPH-01 with tape or screw.
 - For tape: check the range first by testing functionality from its intended location before taping the WPH-01 in place.
- Mount cover frame. Fasten the center plate and click the desired rocker switch into place.
