

# STATUS INDICATOR WZ 4

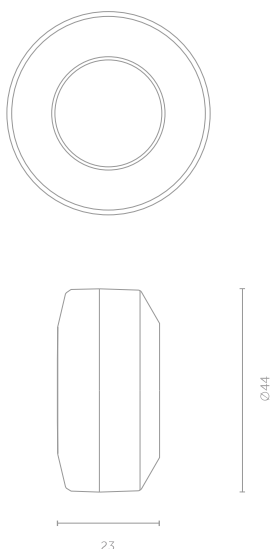

The WZ 4 status indicator is intended for optical repetition of the signalling alarming state of the detector or a group of detectors in the fire alarm systems. It can be added to the detector or a group of detectors. The indicator is applied when installed detector is invisible or there is limited access to a room supervised by detectors, for example, it is installed in spaces above ceiling, in cable passages, technical rooms, hotel rooms, etc.

## STATUS INDICATOR WZ 4 CHARACTERISTICS

- › extra optical indication
- › compact housing
- › 4 signalling LEDs
- › current consumption up to 4 [mA]

## DIMENSIONS [mm]

## TECHNICAL DATA

NAME	STATUS INDICATOR WZ 4	
POWER SUPPLY VOLTAGE	24 [VDC] $\pm$ 25%	
QUIESCENT CURRENT CONSUMPTION	0 [mA]	
ALARM CURRENT CONSUMPTION	<4 [mA]	
DIMENSION	44x23 [mm]	
WEIGHT	18 [g]	
HOUSING COLOUR	WHITE	BLACK
PRODUCT CODE	FSS001	FSS041
